

## ORNATE GARDEN

A garden should be enjoyed so make it somewhere to relax and unwind from dining to lounging, study to sleep, to entertain or a garden retreat

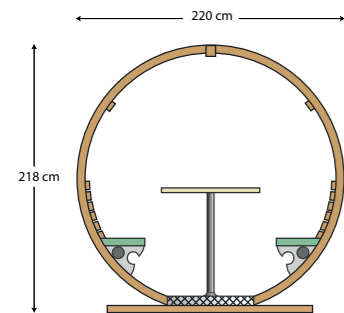

# THE WHEEL BENCH

This unique shaped bench offers you plenty of shade and shelter. It is ideally designed to be placed against a wall, fence or as a stand-alone picnic bench. This means that this specially shaped seat can fit into many different alcoves of space in your garden when the available space in your garden might be a crucial factor.

## KEY FACTS

- : Stainless steel roof to offer shade and reflect heat
- : Four laminated treated sustainable spruce timber arcs
- : Luxurious water-resistant interior
- : Seating capacity for up to six guests
- : Fitted with removable table top
- : A foot print of no more than a standard garden patio set

Height: 218cm  
Width: 220cm  
Depth: 135cm  
Base area: 170cm x 135cm

## Installation

An area of 230cm x 145cm is required for the Wheel Bench to be installed. A hard base of no less than 175cm x 140cm is preferred to build your bench onto. The Wheel Bench should be installed onto an area of flat level ground.

## Ground Preparation

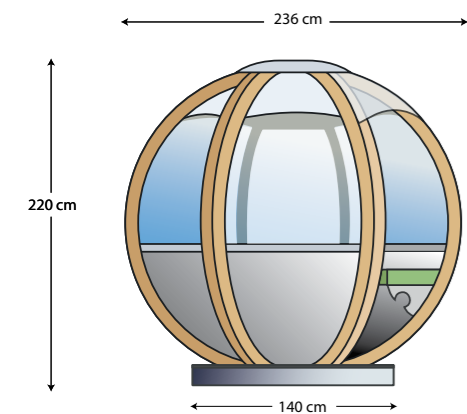

If you are preparing new concrete or paving area for your Wheel Bench, we recommend an overall depth of 30cm allowing 7 days for the ground to settle prior to the arrival of our fitting team.

# THE ROTATING SEATER

- : Rotate 360° into the sun, shade or out of the breeze
- : Stainless steel roof to offer shade and reflect heat
- : Six laminated treated sustainable spruce timber arcs
- : Luxurious water resistant interior
- : Front canopy provided for use in all seasons
- : Ambient interior lighting
- : A foot print of no more than a standard garden patio set
- : Option; Can be upgraded to transform into a bed
- : Seating capacity for up to seven guests

Height: 220cm  
Width: 236cm  
Depth: 236cm  
Base area diameter: 140cm x 140cm

## Installation

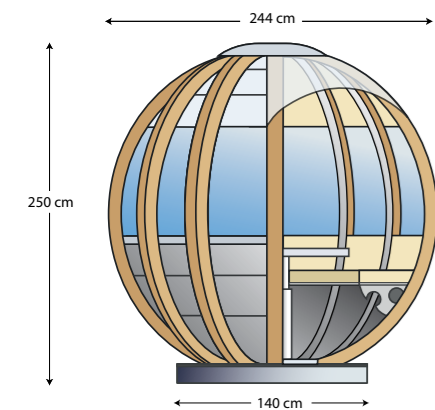

An area of 246cm x 246cm is required for the Rotating Seater to rotate freely. A hard standing base of no less than 140cm x 140cm is required to build your Rotating Seater onto. Your sphere can be installed onto a level paved, concrete or decked area. If you are preparing a new concrete or paving area for your Rotating Seater, we recommend an overall depth of 30cm allowing 7 days for the ground to settle prior to the arrival of our fitting team.

# THE ROTATING LOUNGER

- : Rotate 360° into the sun, shade or out of the breeze
- : Lower table to transform into a bed
- : A stainless steel exterior reflects heat and mirrors its surroundings
- : Ten laminated treated sustainable spruce timber arcs
- : Luxurious vinyl water resistant interior
- : Front canopy provided for use in all seasons
- : Ambient interior lighting
- : A foot print of no more than a standard garden patio set
- : Seating capacity for up to eight guests

Height: 250cm  
Width: 244cm  
Depth: 244cm  
Base area diameter: 140cm x 140cm

## Installation

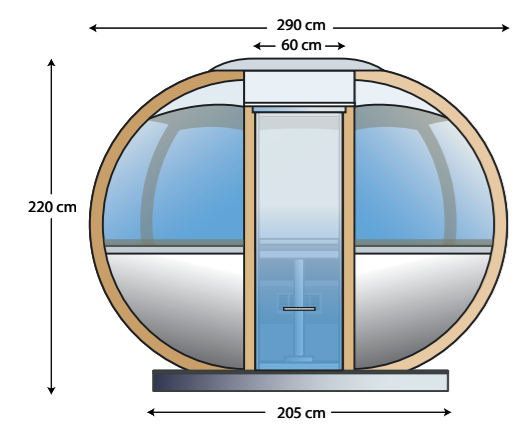

An area of 254cm x 254cm is required for the Rotating Lounger to rotate freely. A hard standing base of no less than 140cm x 140cm is required to build your Rotating Lounger onto. # OUR COMMERCIAL PROJECTS

From practical to contemporary, our pod structures are design to suit the demand of...

Hotels

Restaurants & Cafes

Business Parks

Golf Clubs

Public Gardens

Sports Clubs

Community Centres

Meeting Spaces

Manufacturing Premises

Education

Government

Ski Resorts

Holiday Parks

Glamping Resorts

Care Homes

Our garden buildings are recognised by leading commercial enterprises around the world for their high quality and unique design

## Inspired for life

We understand the ever-increasing implications of excessive Carbon Footprints and the urgent need to only use timber components that are from well managed sustainable sources.

Ornate Garden are proud to continue to manufacture our products, with a consideration to using component parts sourced locally. A high percentage of our component parts are sourced within a fifty mile radius of our manufacturing premises, to ensure we continue to maintain a low level Carbon footprint.

Ornate Garden use only well maintained, sustainably sourced, plantation timber to manufacture our beautiful garden buildings.

## Thinking of you

*from design, to installation and beyond*

We are committed to delivering an excellent service. Our experienced team are on hand to answer any questions and help guide you through our pod collection, whether it's a view to dine, a sanctuary for lounging or room to study, our team will help perfectly tailor a pod to match your lifestyle.

We look beyond the installation to ensure that you're completely happy with your new pod, guiding you through all the features and making sure that you're happy with any care and maintenance.

## Delivery 🚚✂️

Ornate Garden provide a 'dedicated' delivery & installations service. After we arrange delivery, our fitting team will build your pod in your area of preference, removing any packaging leaving you 'Fully Assembled' and 'Ready to Use'

We delivery & install pods to countries worldwide...

## What our customers say

*Fantastic buy. Best ever garden feature. Use it every day*  
**Linda Johnson**

*Best thing I've ever bought. Were in it all the time. Everyone loves the pod, Champagne at New Year. Little princesses on birthday. Great!*  
**David Littlefair**

*Had ours for six years, just great and always admired. Others have bought one after sharing lovely evenings.*  
**Bob and Linda Simpson**

*The pod has been a total success. Its so comfortable in all weathers. A great talking point with visitors*  
**Sela Mooney**

*It has been the best value we have ever had. We love it and call it our Peace Pod. Thankyou very much.*  
**Pam and Ron Ellis**

## How to find us

You are always welcome to visit our showroom near Coleshill in the Midlands to view our range of garden pods. Exit either the M6 at junction 4 or the M42 at Junction 6 and head to Coleshill crossroads, follow the B4114 to Shustoke. Turn right onto Castle lane before entering Shustoke.
